Nonemployer Statistics originate from tax return information of the Internal Revenue Service. The data are subject to nonsampling error such as errors of self-classification by industry on tax forms, as well as errors of response, nonreporting and coverage. Values provided by each firm are slightly modified to protect the respondent's confidentiality. For further information about methodology and data limitations, see [Survey Methodology](#). For descriptions of column headings and rows (industries), click on the appropriate underlined element in the table.

More data	NAICS Code	Description	Nonemployers		
			Firms	Receipts (\$1,000)	Noise Range for Receipts
